

INDOSA strengthens its management!

INDOSA, since 1936 a worldwide successful family business, strengthened its management!
 We proudly welcome Mr. Andreas Grabher and Dr. Magdalen Bless-Grabher in our governing board!
 The administrative board of INDOSA consists now of the following team:

Andreas Grabher

studied at ETH Zurich (Swiss federal technical University) mechanical engineering, business and production administration. 1997-2007 he was a member of INDOSA management, responsible for IT, production, purchasing and marketing. He is the son of CEO Werner Grabher. Since his childhood he is closely attached to INDOSA. Now he is member of its governing board.

Dr. Magdalen Bless-Grabher

studied at the University of Zurich, is internationally active, speaks many languages, has a long experience in research and journalism, author of numerous publications. As a daughter of Hermann Grabher (senior), the founder of INDOSA, she has always been attached to INDOSA. She is married with Kurt Bless, engineer and management consultant, who was in former years also working for INDOSA. Now she is also member of its governing board.
